

Science vision for Crowmarsh Gifford School

Principles

- Developing curiosity to fuel exploration and investigations for learning
- Explore, engage, enquire and explain
- Be well resourced and connected
- Development of a child's science capital
- DT/science cross curricular links
- Making science visible in school
- Giving science a purpose

By making science purposeful, visible and accessible, we aim to inspire, engage and fuel exploration for the scientific world. To achieve this, we aspire to have a strong outreach program and make science as practical as possible.
